### Acknowledgements

The authors thank Kalle Lyytinen, John Leslie King, TC Eley IV, Asta Zelenkauskaitė, and Ping Gao for their feedback on an earlier version of this work. The authors also thank the anonymous reviewers for their helpful comments.

Vladislav Fomin gratefully acknowledges financial support for this research by the Fulbright Scholar Program, which is sponsored by the U. S. Department of State. Its contents are solely the responsibility of the author and do not necessarily represent the official views of the Fulbright Program or the Government of the United States.

The authors are grateful to our project colleagues, dr. Tadas Ziziūnas, Marius Putrimas, and Domas Briedis, who worked on the development of the UHP monitoring tool described in this article.
